

## WHO WE ARE

We are a private non-profit organization founded in 1975 by a group of parents and professionals. We are dedicated to providing innovative opportunities for adults with developmental disabilities to live the fullest life possible, by providing individualized support for every person we serve.

Since our beginning, we have continued to seek new opportunities to help adults with developmental disabilities become fully immersed in their community. In addition to residential services, we offer opportunities through our Creative Community Connections Adult Day Services, pre-vocational opportunities and non-medical transportation. We provide these services across five counties in Ohio.

## OUR MISSION

Empowering people with developmental disabilities to experience the fullest life possible and enable them to integrate into their community
